Breakthrough Montessori embodies a new and distinctive framework for education—one that **begins early, supports active, student-centered learning, addresses all dimensions of human development, and engages the family as well as the student.** In order to measure the environmental and behavioral qualities proven to support executive functions, linguistic and cultural fluency, and social-emotional development, **Breakthrough Montessori has developed a tablet-based classroom observation tool**, the Developmental Environmental Rating Scale (DERS). Breakthrough Montessori is also a **host site for the Montessori Teacher Residency**, which provides job-embedded learning and coaching for future Montessori teachers.
