Two Rivers PCS utilizes a rigorous, **standards-based curriculum**, augmented by an **integrated arts program** and a **content-based Spanish program**. These elements come together through **EL Learning**, an educational model that allows students to incorporate and apply their classroom learning through real-world experiences. Since no traditional assessments exist to evaluate student progress in this type of deeper learning model, **Two Rivers is working to develop and share a new assessment framework**. With quality assessments of deeper learning, the next generation will be better prepared for a future with rich and varied options.
