6-12

Columbia Heights Educational Campus (CHEC) brings an **international perspective** to its curricula through **language immersion courses, internships, and study abroad programs**. Grades 8 and 9 utilize **Summit Basecamp's personalized learning platform**—which will ultimately be adopted by all upper grades—to assess proficiency in real time, allowing teachers to finesse instructional techniques and helping students to identify areas to focus on independently. By the end of the 2016-17 school year, all grades will be fully personalized and will feature **one-to-one devices** so that students can direct their learning and engage with content at their own pace.
