

MUNDO VERDE PUBLIC CHARTER SCHOOL

*Leveraging sustainability
education and bilingualism
as tools for change*

Ward 5

Redesign

Charter

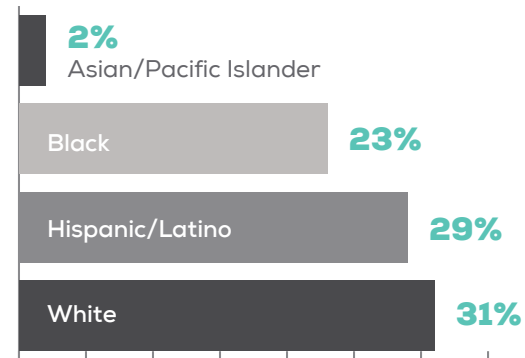

Grades served:
PreK 3-5

With a complex instructional model integrating **EL Education, dual English and Spanish language immersion, and sustainability education**, Mundo Verde Bilingual PCS's core belief is that *how* children learn is as important as *what* they learn. Through hands-on, project-based, and learner-centered instruction, Mundo Verde students develop a **sense of identity, culture, place, and purpose**, as well as the knowledge, skills, and values to thoughtfully take on stewardship for their communities and the Earth. Individual learning profiles allow teachers, parents, and students to understand and track each student's goals and progress through a digital portal.
